Registrar

- New Non-degree pathway for recent grads that will enable them to receive loans
- Catalog update regarding GPA reset

After the completion of an undergraduate degree at FIU and upon admission to a graduate degree the GPA calculation must and will be re-started. The GPA for students who have completed an undergraduate or graduate degree at FIU and returning to pursue an additional degree within the same academic level, i.e., undergraduate to undergraduate or graduate to graduate, will be reset. To trigger this reset process, the student's advisors, academic department and/or college must contact the Office of the University Registrar by emailing OneStop@fiu.edu.
